The objective of the Component 1B Entrepreneurship Facility

• Attract reputable solar companies in the West African market, attract existing and established businesses operating in non-solar space to engage in providing electricity service through standalone solar systems and support local entrepreneurs to set-up & bring to scale energy service companies to provide electricity services to provide universal electricity access in ROGEP target countries
If you don’t know where you are coming from; it is hard to know where you are going
TA & Financing interventions will be provided to businesses and supported by other tools

**SUPPORT TO BUSINESSES...**

- **Technical Assistance**
  - Enhancing capacities
  - Enhancing skills
  - Enhancing expertise

- **Financing**
  - Contributing to business growth
  - Facilitating track record to access finance; increase bankability & viability

**...CLOSELY LINKED TO...**

- **ECOWAS Certification Scheme for PV installers/technicians**
  - Successfully operated by ECREEE since 2015

- **ECOWAS Entrepreneurship Support Facility**

- **Support local entrepreneurs to set up and scale energy services companies**
- **Attract reputable solar & non-solar companies to provide electricity through standalone solar systems**
Support provided – TA & Financing - depends on the development lifecycle stage of the business

**Tier 1 - Startup**
- < 3 FTE
- < 300 SHS or < 1,500 lanterns sold
- <$100k annual revenues
- Has not accessed outside finance (except personal loans), may have a business bank account

**Tier 2 - Early Stage**
- 3-25 FTE
- 300-30,000 SHS or 1,500-50,000 lanterns sold
- $100K-$3M annual revenues
- Has a business bank account, maybe some outside funding (e.g. crowdfunding)

**Tier 3 - Growth/ Maturity**
- > 25 FTE
- > 30,000 SHS or > 50,000 lanterns sold
- > $3M annual revenues
- Has a credit line at a bank and financial statements (possibly audited), likely raising equity or other outside financing

- **Entrepreneurship & Business Training**
- **Matching Grants**
- **Customized Business Acceleration Support**
- **Repayable/Co-investment Grants**
- **Facilitation for non-solar businesses to expand into the solar industry**

*Existing businesses not in the solar business categorized by # of FTEs & Revenues & effectiveness of distribution chain*

- Development of a regional network of training partners
- On-going TA & capacity building for national & regional training partners
When the goat is present, one should not bleat in its name
When the goat is present, one should not bleat in its name

Dear Sire

Many thanks for organizing what in my view was a very successful workshop.

For me it provided clarity of the regional and international sector context and perspective, and an opportunity to share experience and review existing “best practice” business models; this helped me to better understand the growth potential and social impact of the paygo solar sector. This new understanding has given me the required confidence to continue with our current investment strategy and business focus in the sector. The B2B opportunity proved even more of an invaluable meeting as it provided us the platform to meet key industry holders; our company does now have a plan to collaborate with Renewit and Angaza, without this conference this could have proved a real challenge.

As I look forward to the next ROGEP conference, I know our organization is already in a much better place than before I attended this conference.

Once again many thanks as we look forward to your continued support.

Best Regards

Female Participant from Accra Entrepreneurship Training 2018
A. Entrepreneurship & Business Training for Tiers 1 & 2 businesses (2/2)

**TRAININGS COURSES WILL BE PROVIDED...**

On a regular basis

During 2-3 days

B. Customized Business Acceleration Support for Tier 2 businesses

Tier 2 Businesses
- still developing & iterating their business model
- adapting technology
- finalizing product marketing strategies

Customized Assistance
- Refining of business strategies and business model
- Mentoring from seasoned entrepreneurs & investors
- Transaction advice & investment facilitation
- Technology and product development support

9-12 months for each participating business
Application through online application managed by ECREEE
Partner organization providing incubation for successful candidate to be selected by ECREEE
Participation to Investment Forum @ ESEF incl. pitching & B2B sessions
C. Facilitation of Entry to the Solar Industry

Non-solar companies:
- Operating in other sectors with strong local distribution channels
- Most likely Tier 2 & 3 businesses with access to financing but limited know-how /awareness of the opportunity expanding into solar
- Large potential new entrants into standalone solar industry

ROGEP:
- Awareness raising
- Specialized TA to expand to solar
- Proactive approach to attract such firms

Only if ROGEP can offer additionality
Financing Interventions
3 types of grants will be provided to businesses

**MATCHING GRANTS**
- Develop ideas into viable business
- Develop & test market products
- Etc.
- USD 25k grant maximum
- + some matching cash contribution from company
- Provided on a milestone basis
- Possible also for expansion to other ROGEP countries

**REPAYABLE GRANTS**
- Market products
- Expand operations
- Transaction assistance
- Etc.
- < USD 250k grant
- No interest
- No collateral
- Payback time: Several years
- Benchmark & cooperation with other repayable grants

**CO-INVESTMENT GRANTS**
- Business expansion in other ROGEP countries
- USD 250-500k grant as part of a larger capital raise/co-investment
- ROGEP support represents an incentive/de-risk for co-investment
- Relying on due diligence done by co-investor(s)
- Benchmark of other co-investment grants

Further details available in ProDoc
Gender Component under ROGEP

Subcomponent 1B – Entrepreneurship Support
Subcomponent 1B - Entrepreneurship Support

Main goal:

• Ensure women entrepreneurs participation in the pay-you-go-technology off-grid solar and business model;

How do we get there?????
Subcomponent 1B - Entrepreneurship Support

• information's and awareness raised: work closely with regional and national actors to spread information about the opportunities;

• Ensure local communities are able to access and disseminate information to ensure women representation;

• Ensure communications channel is gender sensitive: the information goes from the base to the top;
Subcomponent 1B - Entrepreneurship Support – Gender-responsive TA activities

• Ensure women entrepreneurs and other under-represented stakeholders have the equal opportunity to benefit from relevant capacity-building activities and financial support under this sub-component;

• To ensure, entrepreneurs who receive support, mainstream gender into their business models;

• Ensure that calls for proposals and trainings (trainers, participants, contents, etc.) are gender-sensitive.
Subcomponent 1B - Entrepreneurship Support –
Gender-responsive Financing Support

• Ensure all calls for applications encourage the participation of women and other vulnerable groups;

• Companies receiving financial support should be sensitized about mainstreaming gender into their business models;

• Criteria on gender should be gradually included in the procurement and provision of support;
A picture is worth a thousand words
Scope: Recap of full spectrum of the Facility
TA & Financing interventions under Subcomponent 1B covers full spectrum of SSS businesses (2/2)
