TERMS OF REFERENCE

Project Title: Information and Communication Technology

Statement of Work: Consultancy Services to develop ECREEE’s IT Policies and Procedures

Starting Date: 20th December 2021

1. Background

The ECOWAS Centre for Renewable energy and energy Efficiency (ECREEE) was established in 2010 in response to the energy crisis faced by member states in the West Africa region. The overall objective of ECREEE is to contribute to the sustainable economic, social and environmental development in West Africa by improving access to modern, reliable and affordable energy services, energy security and reduction of energy related externalities (GHG, local pollution). More specifically, ECREEE aims to create favorable framework conditions for regional Renewable Energy (RE) and Energy Efficiency (EE) markets by supporting activities directed to mitigate existing technological and financial barriers.

Since its inception in 2010, ECREEE has played an active role in developing region-wide policies related to Renewable Energy (RE) and Energy Efficiency (EE), as well as creating awareness, investment in the energy sector and capacity development.

In pursuit of its mandate, ECREEE have had significant growth in its workforce and business opportunities, which constantly increases the demand for effective IT governance. This is imperative to achieving of the center’s mandate.

2. Objective of the Assignment

The objective of the assignment is to develop IT related Policies and Procedures in order to improve the delivery of IT Services at ECREEE, to drive the business goals

3. Scope of Work

This Consultant is expected to produce the following deliverables:
